

ANOTHER SARK LARK UPDATE

Our investigation at Companies House has led us from Bertha Cole to her close associate Julie Louise Elmont. The fact that Ms Elmont has 16 current or previous directorships in the UK register is in itself perhaps not big news. What Sark News finds very interesting is the paper-trail across the Atlantic all the way to Panama, where so many of Ms Elmont's UK companies appear to have connections in the Panamanian register, with other Sark residents listed as directors:
